

# The Pit Crew Challenge

The engine roars as the NASCAR enters the pits... a quick tire change is needed, seven crew over-the-wall, seconds count. How will they handle the pressure? What if an error is made? Who will do what role? Who's in charge? What can they do to improve?

The Pit Crew Challenge is the ultimate teambuilding experience designed to tap into the high performance zone of your people. They need to think quickly, work together, share experiences, coach each other, communicate, all in an attempt to beat their own best time.

The ever competitive market place puts fractions between first and second place. The Pit Crew Experience brings this to a practical learning environment to teach your people the skills to work better under pressure. Renewing processes, adapting, and implementing new skills are the cornerstones to maintaining a competitive edge. Give your staff a chance to show what they can do.

## AN INTERACTIVE TRAINING ACTIVITY LIKE NO OTHER!

Take the largest spectator sport in the world and focus on one of its most complicated elements. Now, give your people the chance to experience something they've only dreamed about.

The sights, the sounds, the smells all add to an experience that can't be replicated in the classroom. The Pit Crew Challenge crosses all lines of skill, experience and interest. The immediate reward of accomplishing a set goal is thrilling for everyone - no matter their taste for racing. Give them an experience that they will talk about again and again, and you've given them a chance to grow their skill, build morale, and develop a better functioning team.

Each Pit Crew Challenge model is unique and custom designed for the specific needs of the group. The learnings for participants occur during group debriefs that make realistic connections to organizational issues.

Consistently ranking number one in participant satisfaction and enjoyment by the number one ranked provider of customized corporate education in the world, the Pit Crew Challenge stands up against highly demanding international organizations. From executives to engineers, to managers, supervisors, and front-line workers; no other program creates an environment so easily understood, yet equally as challenging for all levels of the organization.

If you see a connection between the performance of a real pit crew and your team, you too can have a training activity like no other.
